

Hi! I'm Rudyi Nazarii

About Me

I am a fourth-year Software Engineering student at the Igor Sikorsky Kyiv Polytechnic Institute with hands-on experience in game development, robotics, and AI. I recently completed an Erasmus+ semester at Lodz University of Technology (Poland), where I deepened my expertise in Artificial Intelligence, IoT, and Cloud Computing — studying fully in English in an international environment. I bring value by delivering complete features, optimizing codebases, and creating polished solutions. My adaptability, teamwork skills, and innovative thinking enable me to contribute effectively from day one.

Work Experience

Logico-apps July 2024 - Sep 2024

Trainee Unity Developer

- Developed the main menu, its logic, and UI.
- Implemented a dynamic moving background for seamless visuals. Created boosters and added audio for better engagement. Collaborated with the team to integrate pre-designed assets.

Robocode May 2024 - August 2024

Teacher/assistant

- Programmed line-following robots using Arduino and a robotics framework.
- Taught C++ and electronics, explaining robotic logic and hardware.
- Mentored teams to complete robotic challenges on time.

Hard skills

Here's a list of my hard skills from my LinkedIn and GitHub profiles:

- C++: Robotics programming and GitHub projects.
- C#: Game development with Unity.
- Python: Game development (15 puzzles).
- Git: Version control and collaboration.
- Docker: Completed course on Udemy.
- Unity: Teaching experience and professional work in game development.

Education

• **2022 - 2026 | University**
APEPS department of Igor Sikorsky Kyiv Polytechnic Institute

As a Software Engineering student at the Igor Sikorsky Kyiv Polytechnic Institute, I study programming, algorithms, data structures, software design, testing, and debugging.

• **2025 - 2026 | Erasmus+**
Lodz University of Technology, Poland

Semester exchange in Information Technology. 20 ECTS credits. Key subjects: AI & Expert Systems, IoT, Cloud Computing, Software Engineering. Studying fully in English alongside students from 5+ countries

• **2023 - 2024 | Student Council**
Student Council Project Department

I have been an active member of the Student Council's project department, organizing events that enhance teamwork, planning, and organizational skills.
